

## THE BOA SHOP

### Slick Flicker

A very fast bat, there is very little drag which ever side of the bat you are using. If you move the puck around a lot and have quick hands, then this is the bat for you. It also has a good reliable flick and is perhaps the most popular design selection.

### Slick Flicker Slim

The same reliable straight edged flick and flicking distance is achieved with the Slick Flicker Slim. The new slimmer design allows for quicker movement through the water and improved manoeuvrability

### Atom Ant

Real power. Similar flicking edge as the Slick Flicker, larger playing area. A good reliable flick.

### Sabre

Similar in size to the Slick Flicker but with a curved flicking edge. All stick types achieve the same result, but the Sabre has been developed to suit players who prefer flicking with curved edge stick, rather than a straight edge.

### Sabre Slim

Based on the Sabre with the same flicking edge giving the same flicking distance. The slimmer design allows much faster movement and manoeuvrability through the water.

### Pucks

Pucks are the OZ style pucks, and weigh approx. 1 kg. We stock the Orange (soft) and pink (medium) pucks. Other colours can be ordered by request

£20/puck

**All pushers above come with the following handles options: long, wide, long and wide, standard (small) in all 3 types, LH and RH and a standard slim option for slick flickers and sabres. All pushers cost £10.00 per pair.**
